COMPANY PROFILE

RS Comfosys (RSCPL) started its operation in the year 2012 with a vision to provide a complete one stop solution for the cold chain industry. Focusing mainly to the markets in Eastern and North Eastern states in India, in a short span of time, the company has now catered to more 500 small and big companies providing cold chain solutions.

RSCPL has a wide network of its offices and service centers spread across in the eastern states West Bengal, Orissa, Bihar, Jharkhand and North Eastern states. Company has its head office at Kolkata. Backed by a team of young professionals and highly trained engineers, RSCPL is now a name synonymous with the mobile transport refrigeration solutions.

RSCPL is the exclusive dealer for TRANE TECHNOLOGIES products-Thermoking, world leader in Truck Refrigeration, for the eastern India. Recently awarded as the “BEST DEALER” pan India for the year 2017.

Company started manufacturing its own PUF Insulated reefer containers from the year 2015 and has the capability to customize and design world class containers from 6’ feet to 32’ feet in length. RSCPL has also tied up with reputed containers manufacturers like ICE MAKE REFRIGERATION to provide light weight GRP containers.

We can provide unique solutions for transport refrigeration, both for chill and frozen applications. Our product offerings cater to applications ranging from 3 wheelers to 10 wheelers vehicles. We have also launched a new concept where we can provide solutions for last mile delivery for smaller vehicles having low HP, by providing electrical compressors.

Service being the backbone of this industry, RSCPL has laid special focus on this area. Maintaining a fleet of more than 500 vehicles of its customers now, RSCPL has been able to ensure maximum uptime of the vehicles at minimum expense. Our trained and experienced engineers are exposed to world class training on a regular basis, backed by state of art workshops, we ensure best quality job in record minimum times.

RSCPL is working closely with govt. agencies like NHB, APEDA and State Fisheries and have successfully completed many cold chain projects in time. Company has provided solutions for many mega food parks, NHB projects and have been instrumental in delivering customized solutions for fish transportation.
